Requirements for certification in 2021/22

For candidates certifying in 2021/22, and where disruption to teaching has been such that it is necessary, assessment can now be reduced by **one moderated unit**.

The diagram below shows the number of units you need to take/submit depending on how many units you have already 'completed'.

Of the units left to complete, where you have an examined unit remaining, this must be taken.

For all candidates certificating in summer 2021, an assessment must be taken this year. Any units taken in a previous series, units that are eligible for a deferred assessed grade from summer 2020 or units eligible for a unit teacher assessed grade (TAG) from summer 2021 are considered 'complete'.

Examples using Engineering Design in 2021/22

Example 1

Three units left to complete, two must be completed and assessed.

Number of units 'completed' as of summer 2021

Number of units to take/submit in 2021/22

With three units left to complete (R105 does not need to be taken), two must be taken/submitted. You can choose which two of the three units to take/submit.

Example 2

Two units left to complete, one unit must be completed and assessed.

Number of units 'completed' as of summer 2021

Number of units to take/submit in 2021/22

With two units left to complete, one must be taken/submitted. As R105 was planned for this year and examined, it must be taken. The remaining unit (R108) does not need to be taken/submitted.

Example 3

One unit left to complete, that unit must be completed and assessed.

Number of units 'completed' as of summer 2021

Number of units to take/submit in 2021/22

With one unit left to complete, that unit must be taken/submitted. For all candidates certificating in 2022, an assessment must be taken/submitted this year.
